PROFESSIONAL EXPERIENCE

Environment and Climate Change Canada — **Gatineau, Canada**
Junior Economist — 09/2024 – 12/2024
- Analyzed long-run emissions projections from the Energy, Emissions and Economy Model for Canada (E3MC) and transformed them into interactive Power BI dashboards for Canada's official GHG projections website.
- Investigated and validated data tables for Canada's First Biennial Transparency Report, ensuring accuracy using R, to meet UNFCCC reporting standards.

Innovation, Science, and Economic Development Canada — **Ottawa, Canada**
Junior Policy Analyst — 05/2024 – 08/2024
- Researched international telecommunications policy trends and emerging technologies, translating findings into a PowerPoint presentation with actionable insights for senior management.
- Created a Python script to web scrape mobile plan prices across carriers, automating the data collection process and saving 5+ hours of time each week.

Health Canada — **Ottawa, Canada**
Data Science and Analytics Analyst — 09/2023 – 04/2024
- Developed file processors using Python to extract and organize metadata from files stored in databases, including a dedicated audio and video processor built with Whisper AI.
- Researched and evaluated emerging AI tools for potential organizational adoption, presenting findings and recommendations to a network of 50+ members.

Verto Health — **Toronto, Canada**
IT Business Analyst — 01/2023 – 04/2023
- Built and developed an ETL pipeline using Python with multiple API endpoints, generating statistical reports for the technical support team.
- Managed risk assessments of 160 change requests to ensure successful compliance for a security audit.
